

Annual Pantry Checklist

Take stock of what you have. Follow these steps for a clean, organized pantry:

- 1) Remove everything from the shelf & clean with soapy warm water , noting any spills or leaks from jars
- 2) Inspect each jar before re-stocking, and organize the **newest foods in back, oldest in front.**
- 3) Check each jar for the following:

Appearance (bubbles, mold, color, etc)

Liquid Levels

Firm jar lid seals

Firm vacuum-sealed bags

The labels—still easy to read, food not outdated
